BATMANTM

RETURNS

It's Christmas time. The Bat-Signal glows in the sky over Gotham City. Cat Woman and The Penguin are spreading their reign of terror and stirring up a tidal wave of criminal behavior. Just as you arrive at Gotham Plaza for the lighting of the Christmas tree, the Red Triangle Circus Gang — a bizarre and vicious horde of criminals — breaks loose and begins to pillage the city. You spring into action.

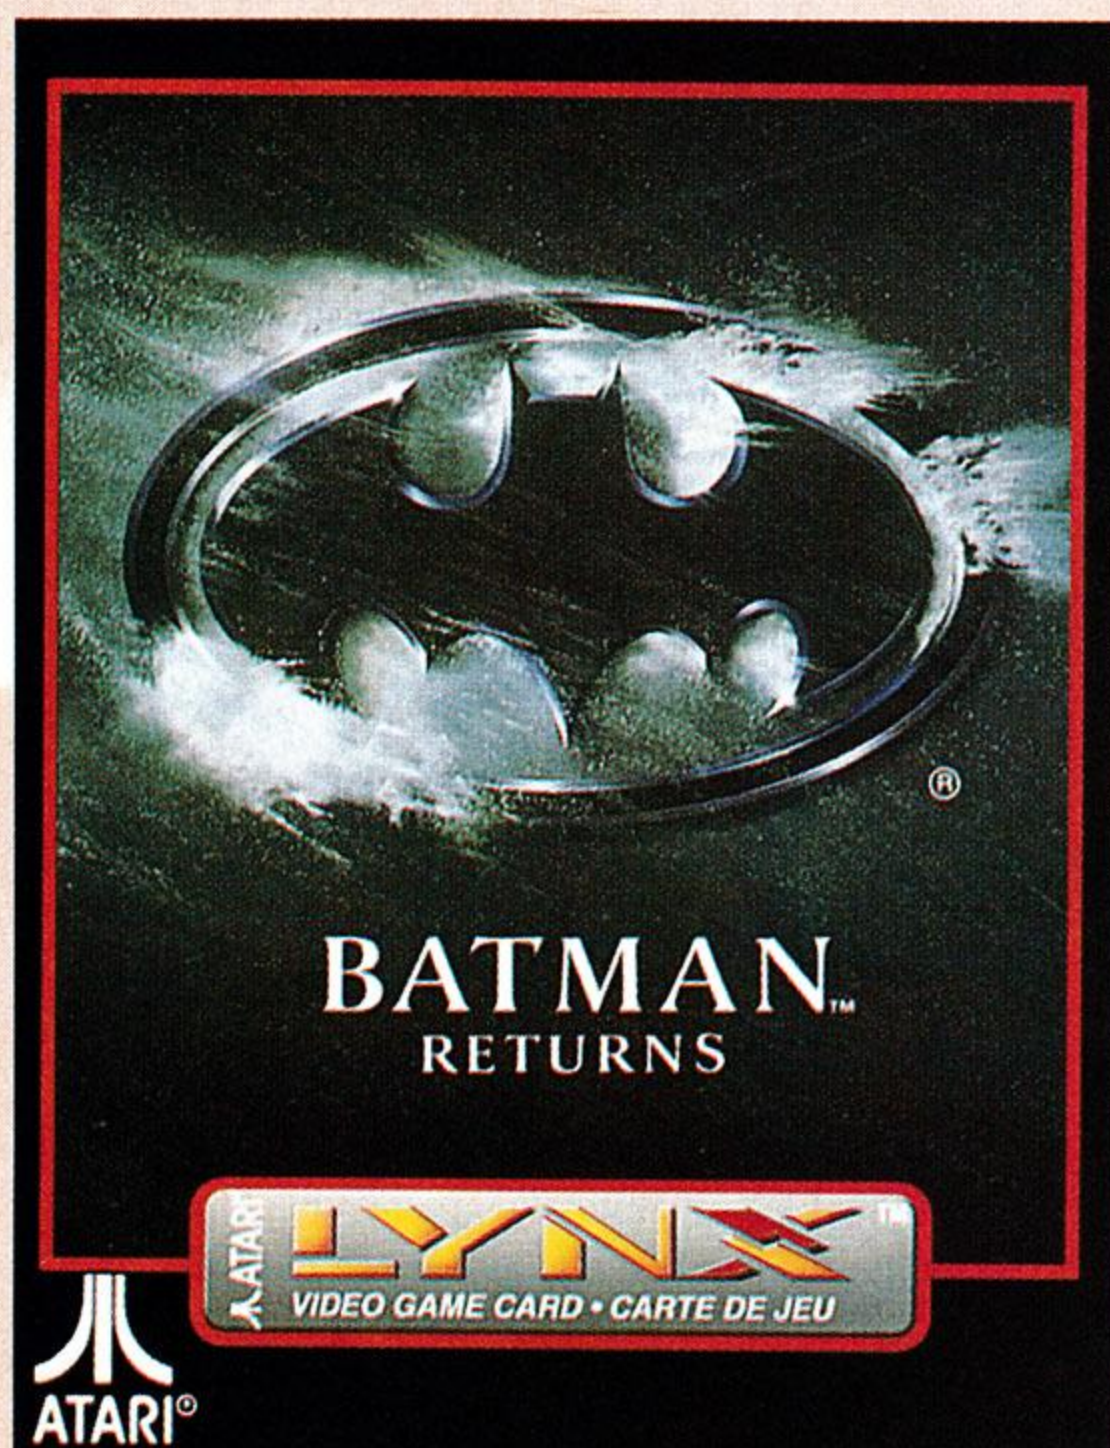

While fighting off the Tattooed Strong Man, the Snake Woman and the Fire Breather, you catch a brief glimpse of the villains behind all the violence—Cat Woman and The Penguin! In the

process of finishing off the Red Triangle Circus Gang, you'll get an opportunity to rescue beautiful Selina Kyle. Don't blow it!

BATMAN and all related elements are the property of DC Comics Inc. TM & © 1992. All Rights Reserved.

In The Batman™ Returns Game, you have three lives. You must use them to punch, kick, jump and use action weapons against the arch-criminals in three major crime waves. Before each wave, you must choose the weapon that will best suit the battle.

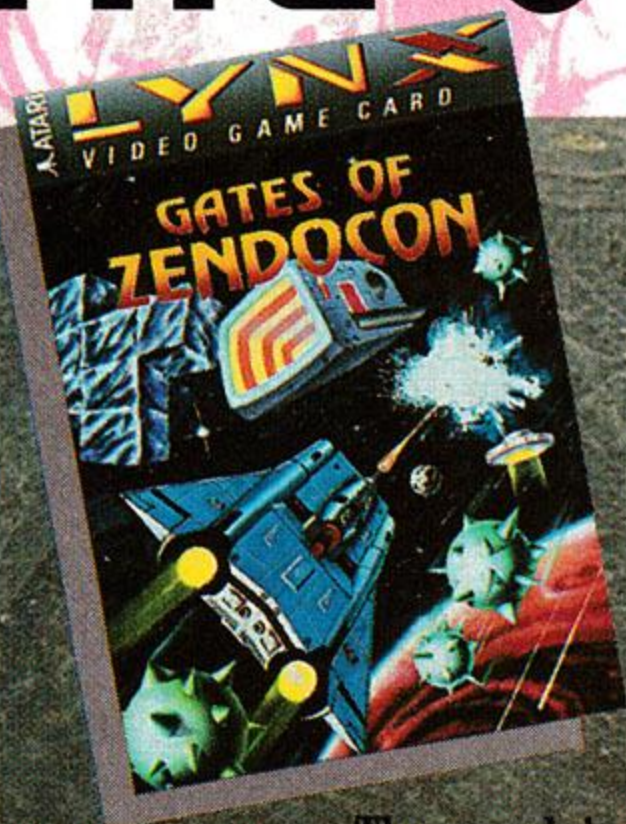

Each wave will play differently, depending upon the weapon you use. Choose the Batarang to blow away aggressive thugs. The Batrope is a grappling hook as well as a short cut between levels that are inaccessible to jumping.

Gas Grenades are bombs you can toss at criminals. Use your body shields as protection against the gang members and to make yourself more acrobatic.

(1 - 4 players)

STEEL TALONS™

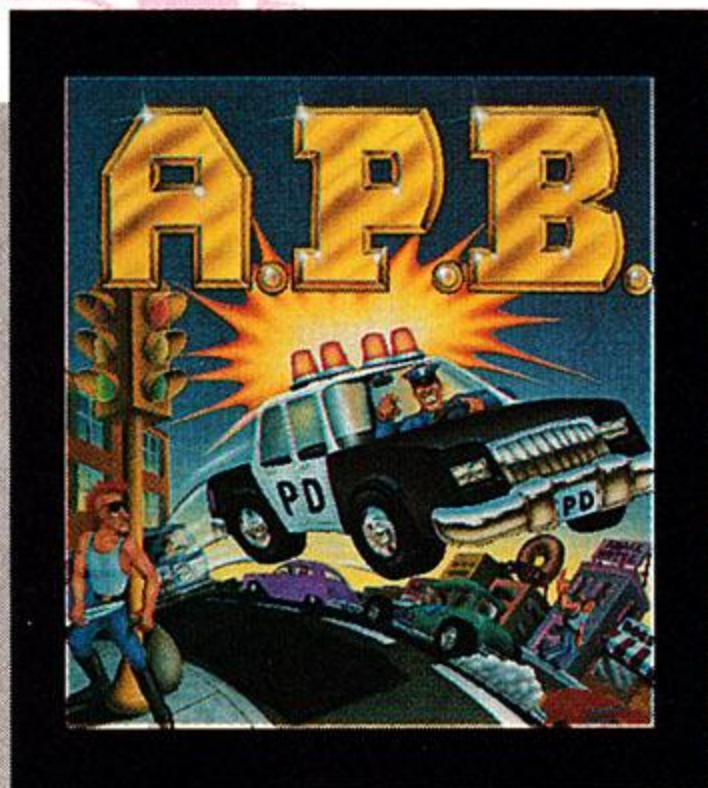

You love it in the arcade, so why not bring it home? Part helicopter simulation, part aerial assault, Steel Talons is all action. You'll need your machine guns, radar-lock missiles, and all the cunning you've got to fly these classified missions. Only Lynx can bring you the 3-D realism of polygon graphics.

LYNX HOCKEY™

Winner of VG & CE's most Innovative Game for '91!

BILL & TED'S EXCELLENT ADVENTURE™

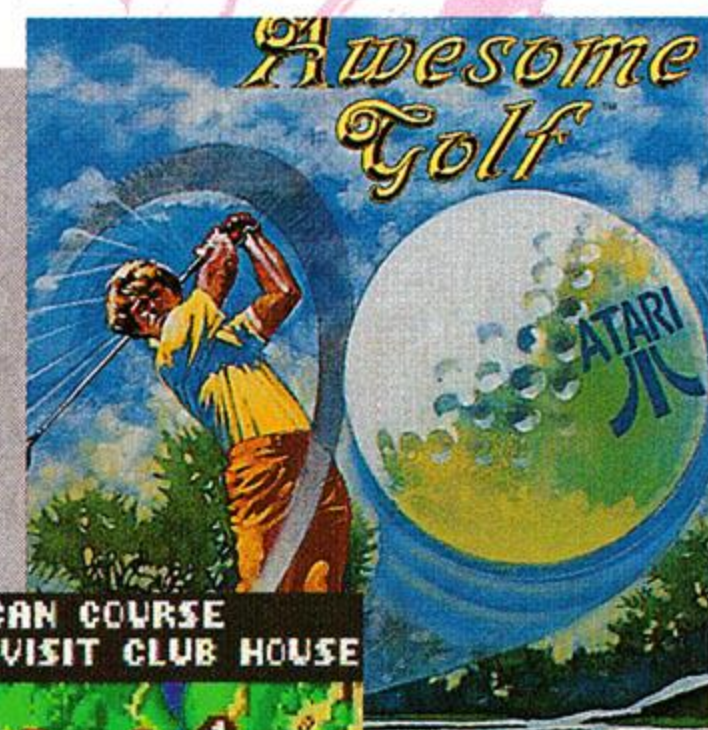

Take the circuits of your brain on a trip through the circuits of time. Bill and Ted's bodacious babes have been kidnapped by his heinousness, the Grim Reaper. The two most righteous dudes must travel through time to gain clues on where they can find the babes! But with your most excellent help, they can triumph. Top reviewers call it the best Bill & Ted's game available. Excellent! (1 - 2 players)

AWESOME GOLF™

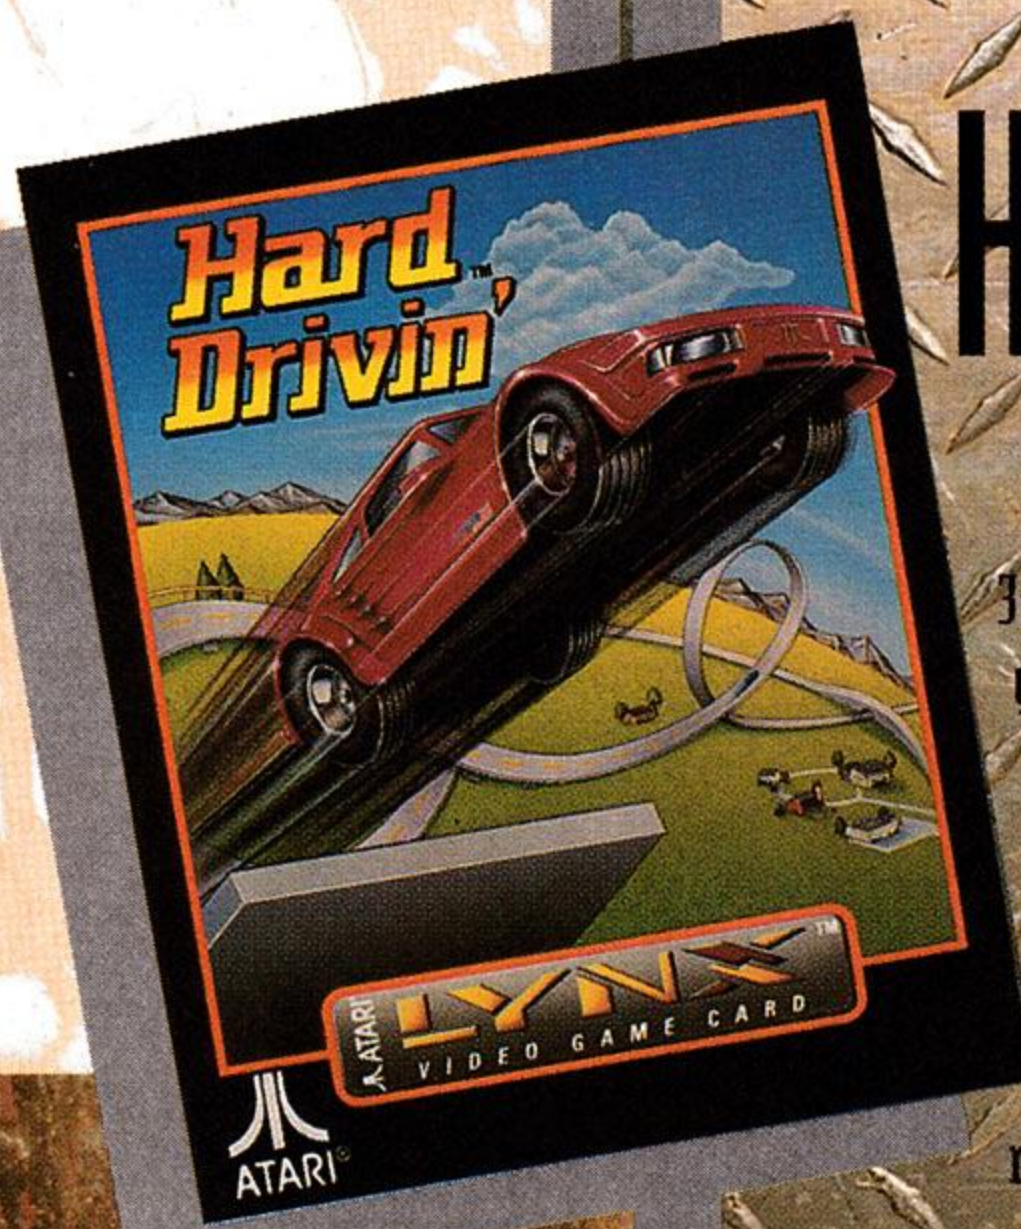

Tee off with total confidence on one of three 18-hole courses in the U.S., Great Britain or Japan. Control your positioning, choose the best club, force of contact with the ball, and scale toward or away from the course to get a bird's eye view of the hole. Only a seasoned Lynx pro can break par in this game. Stay out of the drink and avoid the beach! Pitch onto the green and sink the putt for an Eagle! Chipper the Gopher provides optional color commentary.

CRYSTAL MINES II™

Great treasures lie in the deadly Crystal Mines. You must use your robot droid to destroy the demons and recover the priceless crystals. 150 levels and 31 bonus levels will give you weeks of brain-busting fun!

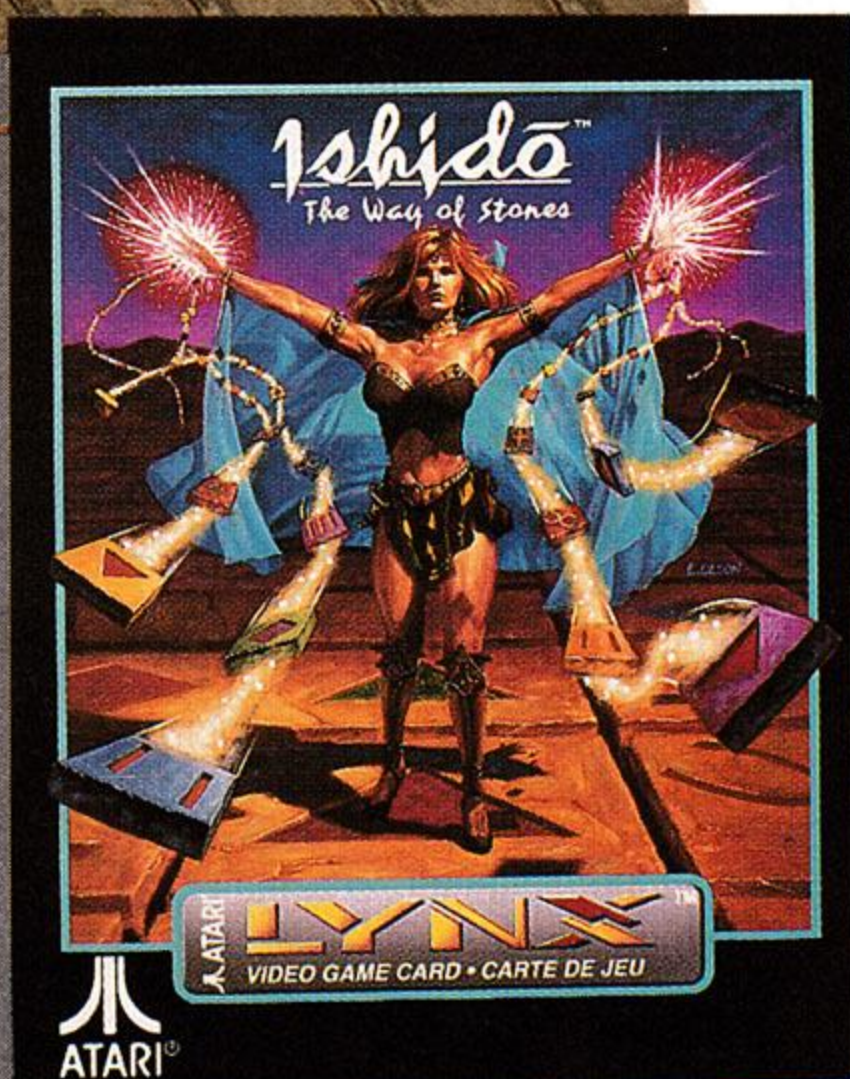

HARD DRIVIN'™

3-D polygon graphics give this game the look and feel of real road rally driving. The veins in your brain will bulge as you test your skill on both the speed and stunt tracks. Race the clock and battle for open road with other cars. Just like the arcade game.

ISHIDO™

Train your brain with this ancient game of skill and concentration. Place stones by matching colors and patterns according to centuries-old rules. Master the stones and the power of the oracle is yours. Feel your brain expand as the wisdom of the stones is revealed. Play in solitaire, tournament and challenge mode.

TOKI™

It happens every day: an evil wizard has taken your girlfriend and turned you into an ape! In order to regain your original form and rescue your girl, you must fight your way through six levels of caverns, mountains and shark-filled lakes and then destroy the wizard.

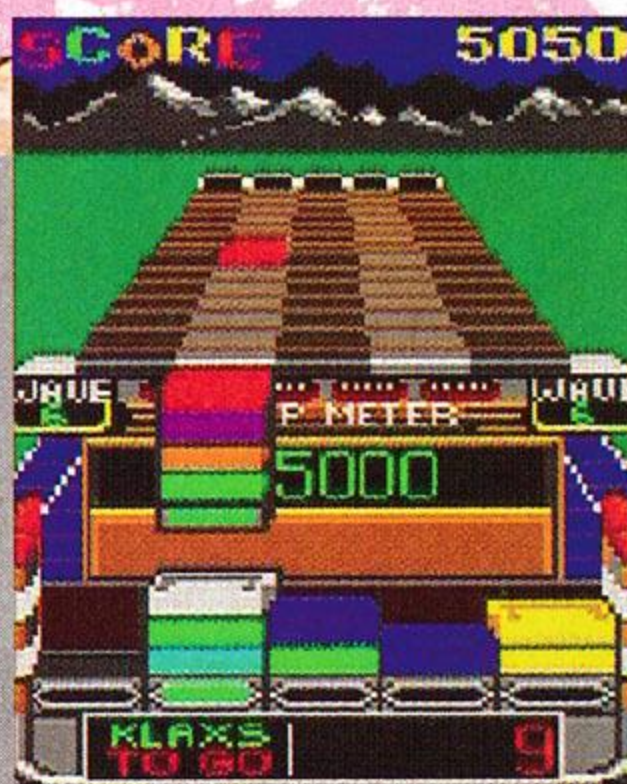

Pick up power icons along the way to help you in your quest. Watch out for the Cyclops and the Spitting Goblins! It sure feels good to finally destroy the cruel Wizard. Outstanding graphics and stereo sound effects make this arcade hit impossible to put down. Rated by High End Magazine as the best version available.

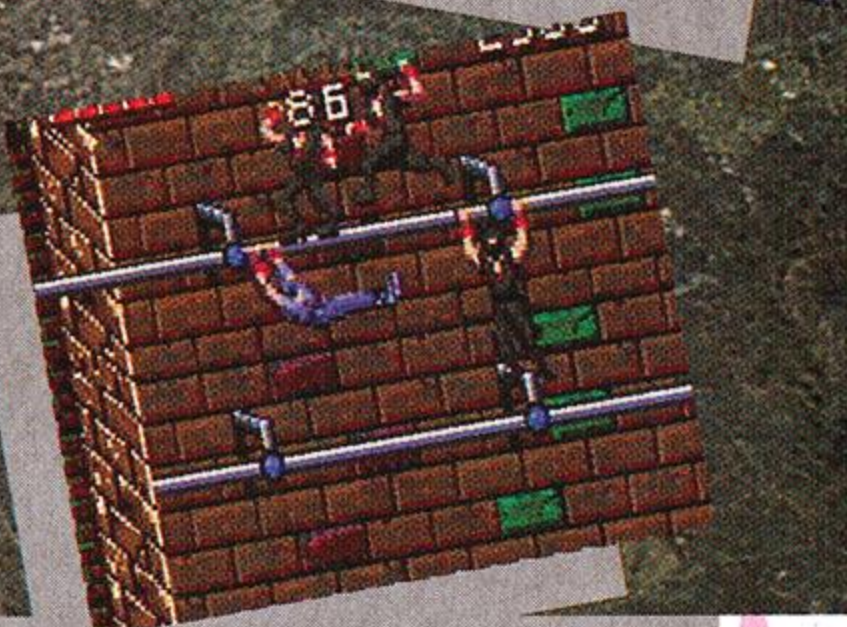

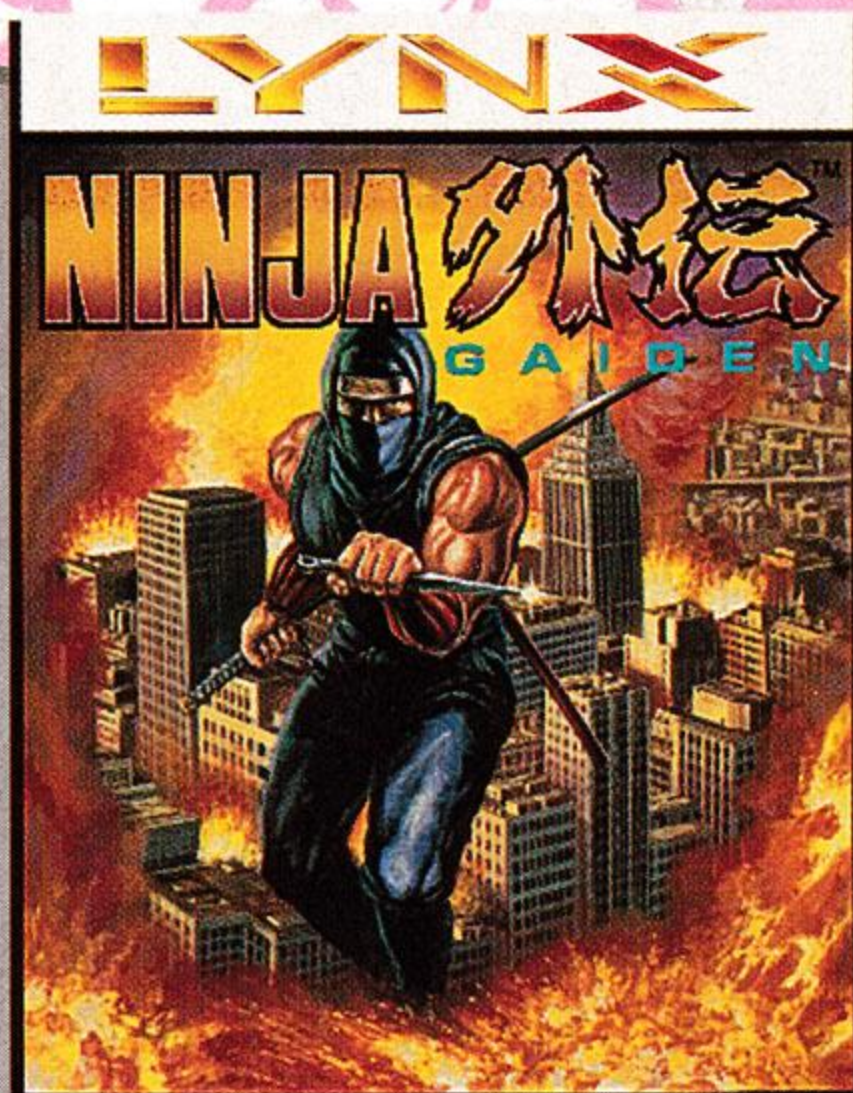

KLAX™

Go mental with this frantic game of concentration, skill and luck. Capture the colored tiles as they tumble down the ramp and flip them into stacks. Create a Klax by lining up three or more colored tiles. Seems easy, until the tumbling tiles start to speed up. Can you move as fast as you can think? Find out how big your brain is!

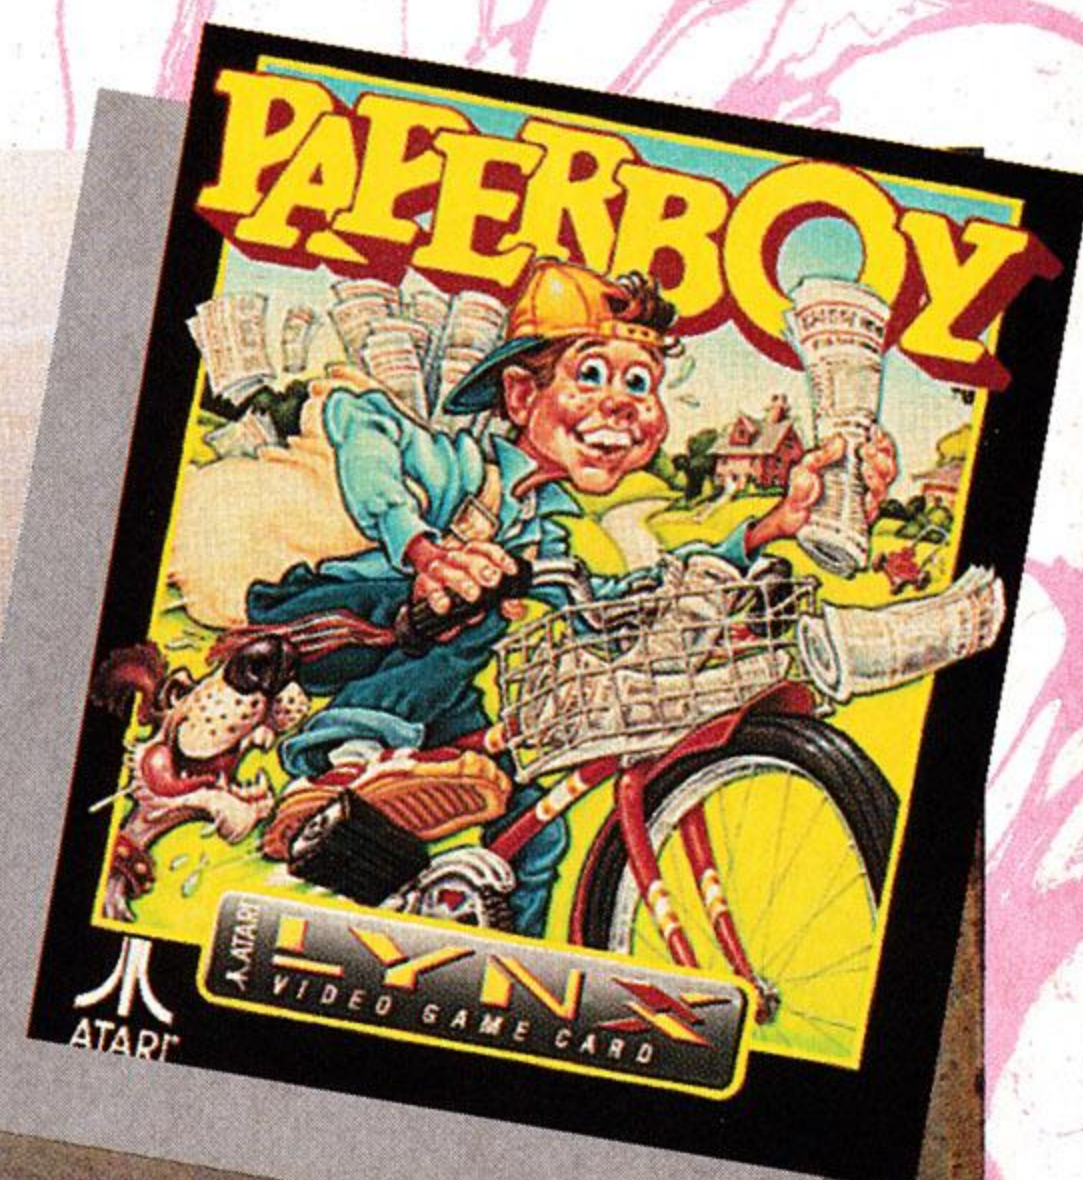

NINJA GAIDEN™

This fearsome arcade game puts you in direct confrontation with some of the nastiest thugs you've ever encountered. As Ninja Ryu, you must rid the streets of Silverink of all the riff-raff, on your way to the ultimate conflict. Master the Flying Neck Throw and the Phoenix Back Flip. Clean up the streets and outsmart your enemy.

PAPERBOY™

This version of Paperboy is the best of any game system. Ride your mountain bike along your paper route, delivering papers to customers and busting up the houses of non-subscribers. Earn bonus points but watch out for bad drivers, crazed house pets and other dangerous obstacles or you'll spin into a cranium-crushing crash. Good luck!

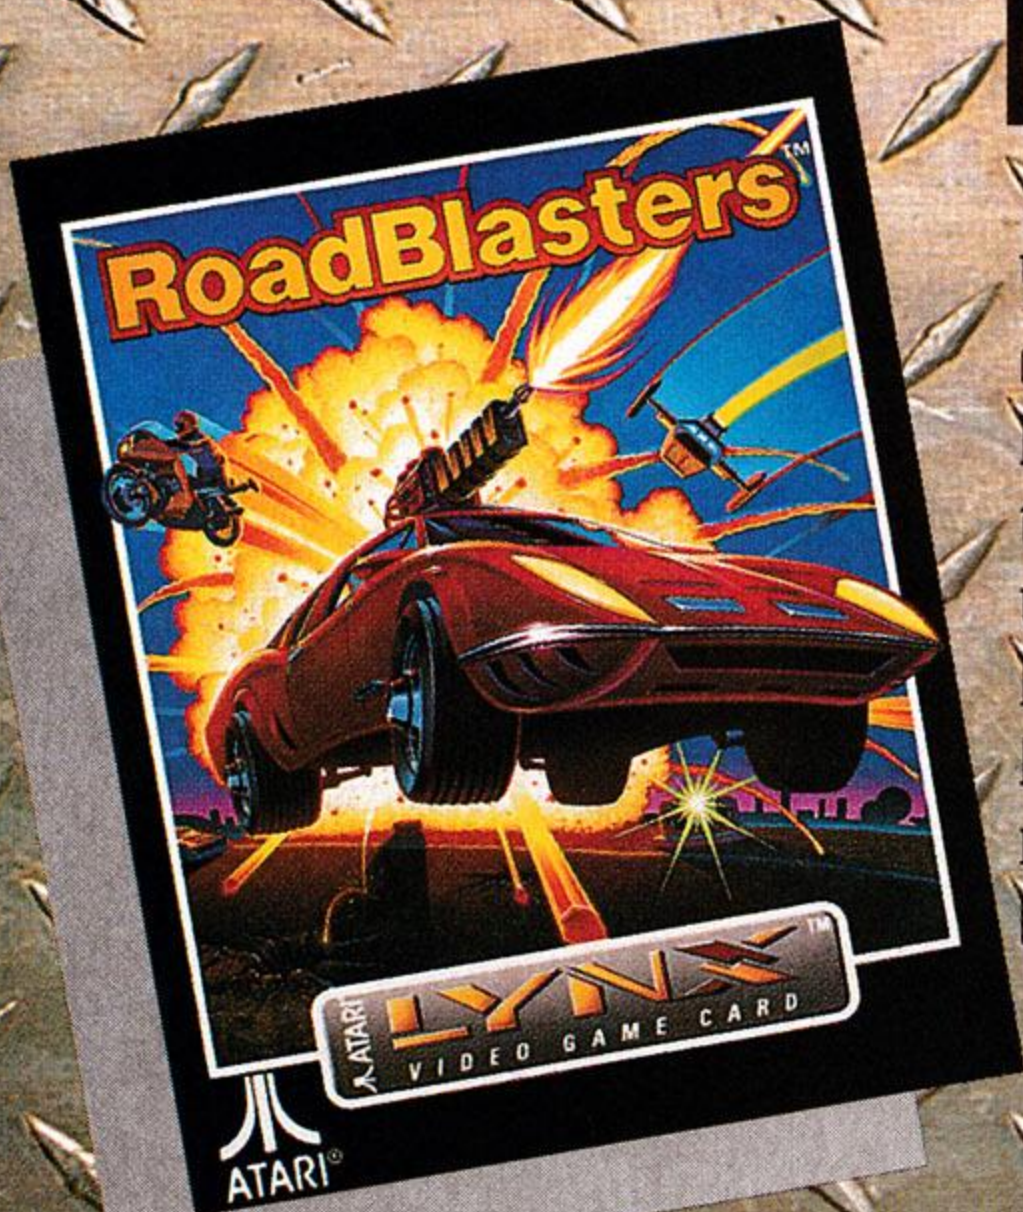

RAMPAGE™

Feel like going out for dinner on the town? How about eating the town? In Rampage, you've been contaminated with a super growth hormone. Now you're going to destroy the entire city, eating people, crushing buildings, flattening everything in your search for an antidote. Up to three friends can help you demolish city after city as you look for a cure. Finding someone else's cure and destroying it is even more fun than stepping on pedestrians! (1-4 players)

ROADBLASTER™

You are the ultimate road warrior, the last hope for civilization. The leaders of the Death Squad — bored of killing and torturing innocent people — have decided to hold a road rally. Posing as a Death Squad driver, you join the rally. Your plan is to drive right into the heart of Death Squad territory and defeat their leaders. Along the way you'll have to dodge mines, blast desert rat jeeps and assault cycles, acquire weapons and blast your way to victory.

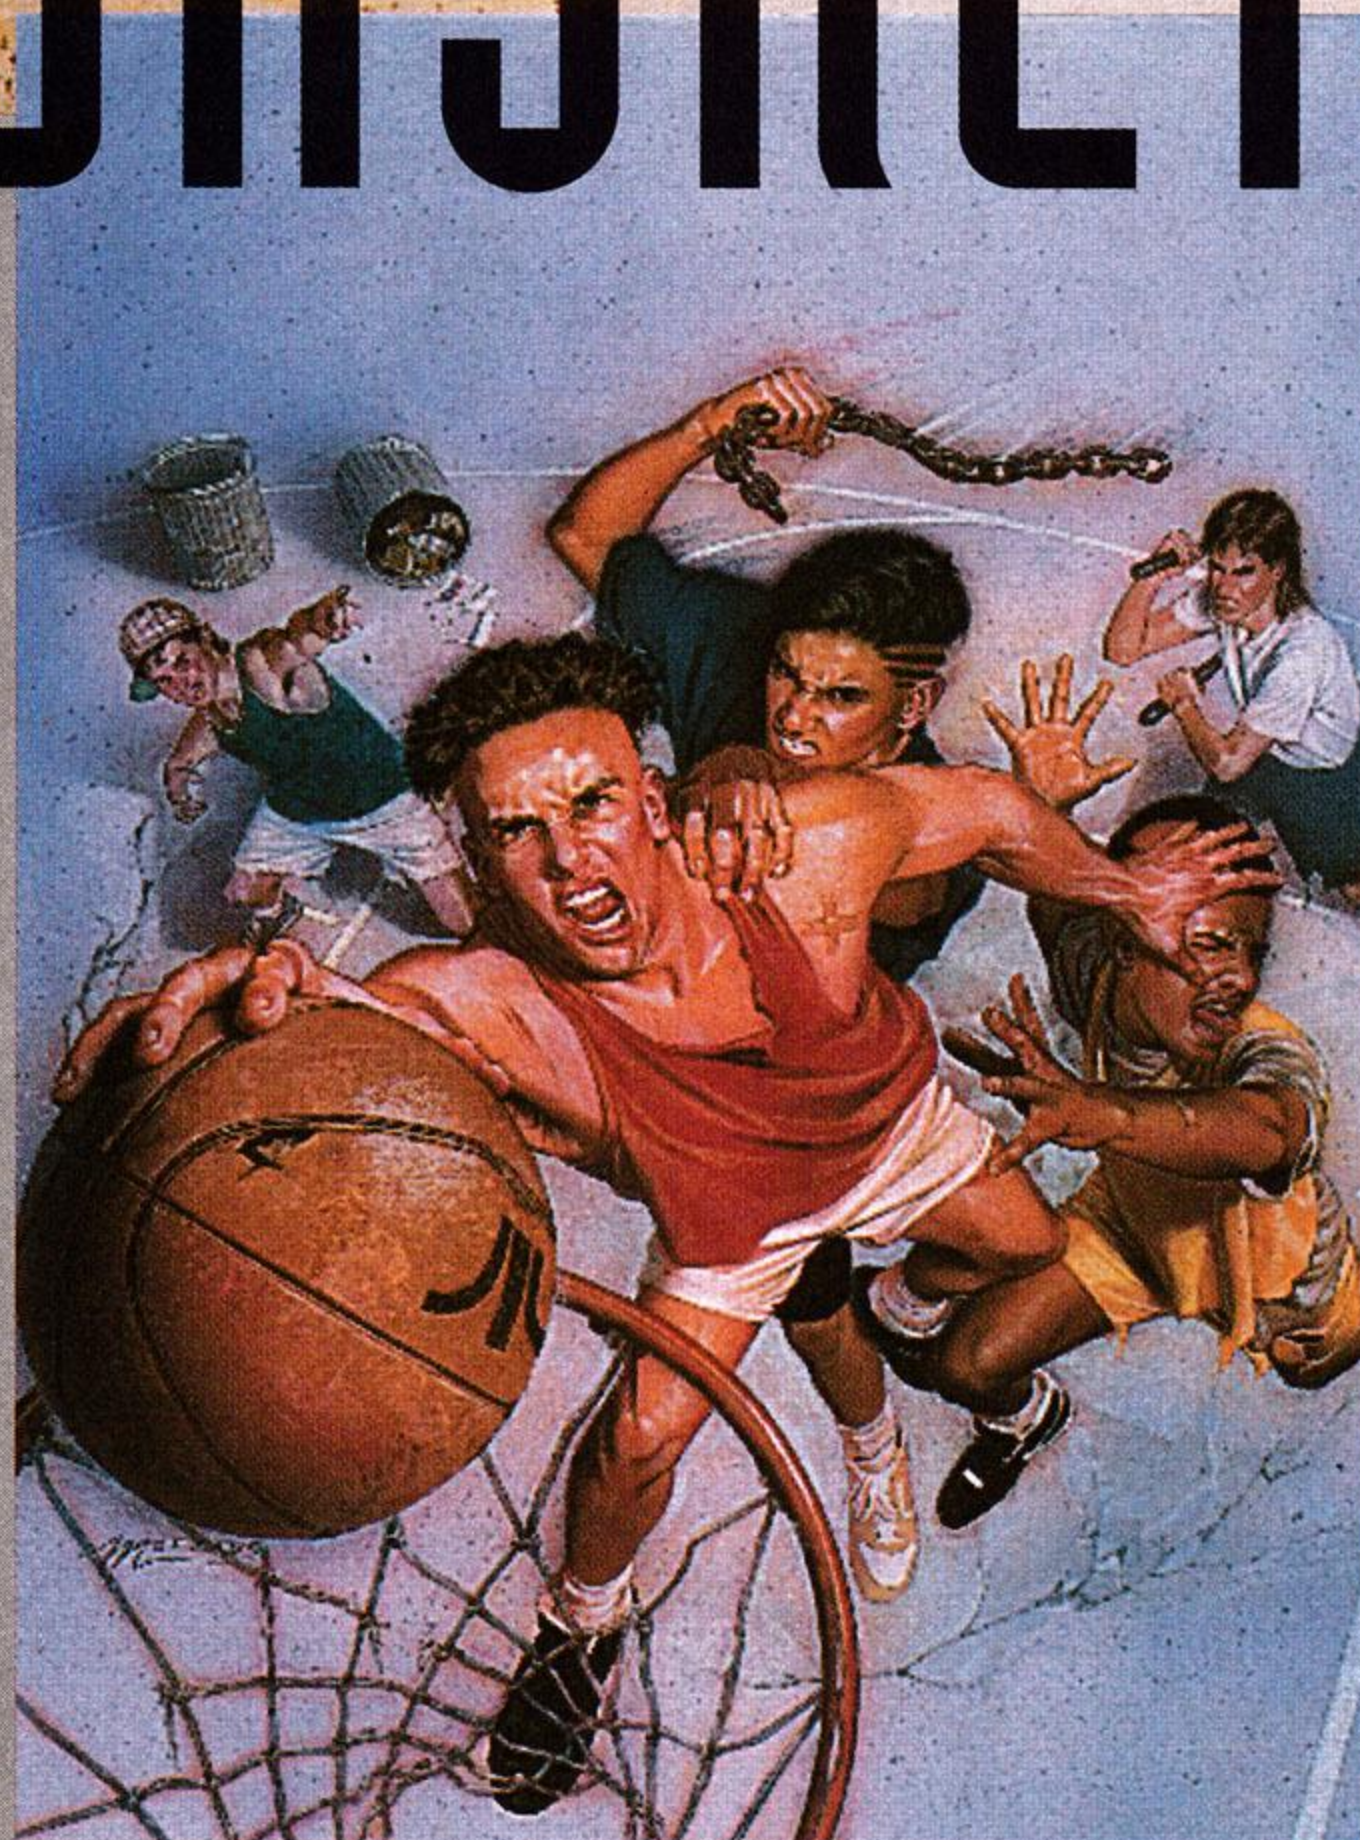

RYGAR™

To bring your land out of darkness, you, Rygar, must battle through 23 levels of treacherous caves, river islands and badlands. Gryphons swoop down, ready to kill you.

Rhinos, centaurs, and antmen run you down. But you are Rygar, the Chosen One. To free your land of evil you must use your strength, your magic shield, and power-ups hidden in magic chests to defeat the hordes of creatures that will attack you. Hurry, though, there is not much time before the country will be plunged into eternal darkness!

BASKETBRAWL™

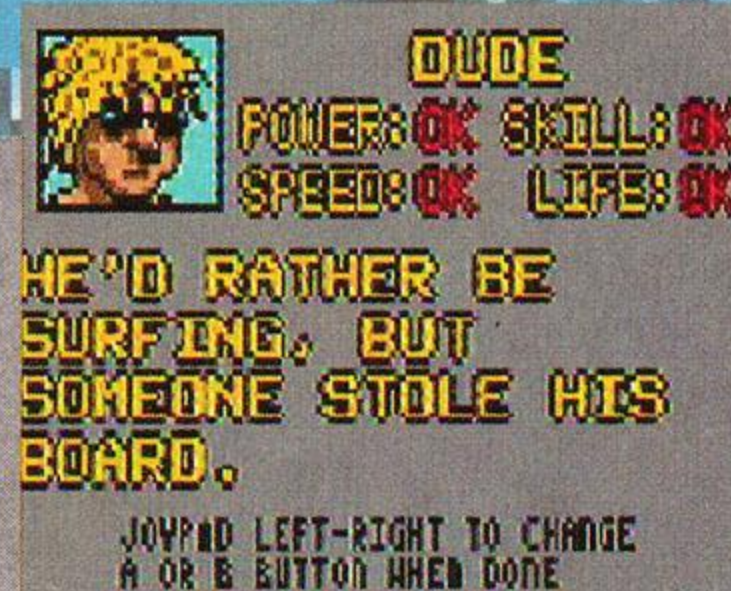

Nobody's a good sport on this court. Only the tough survive this free for all, where brute force is the name of the game. If dribbling, passing and shooting the ball are the only things on your play list, it will shock you when the other

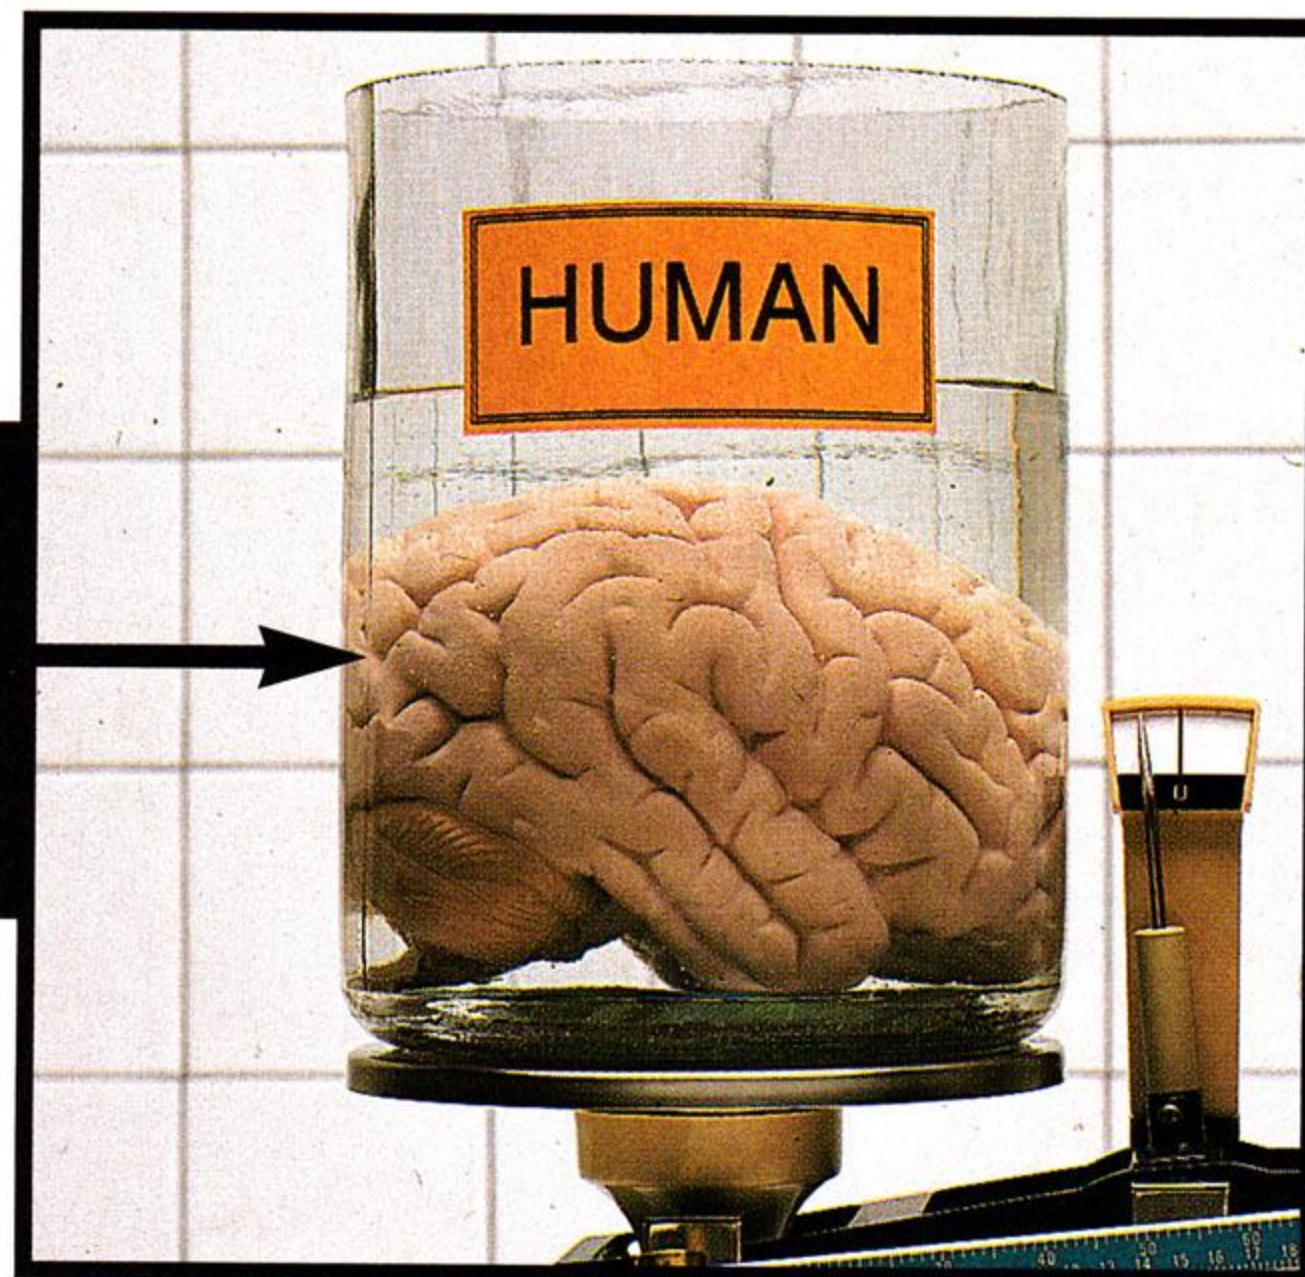

team uses knives and fists to reach the hoop.

Get tough quick and you'll still stand a chance. Punch and kick the ball away from your opponent. Grab clubs, knives and whips along the way to make scoring a little easier for you, and a lot harder for the other team. This game brings new meaning to the words "beat your opponent." (1 - 4 players)

TRIX AND TIPS

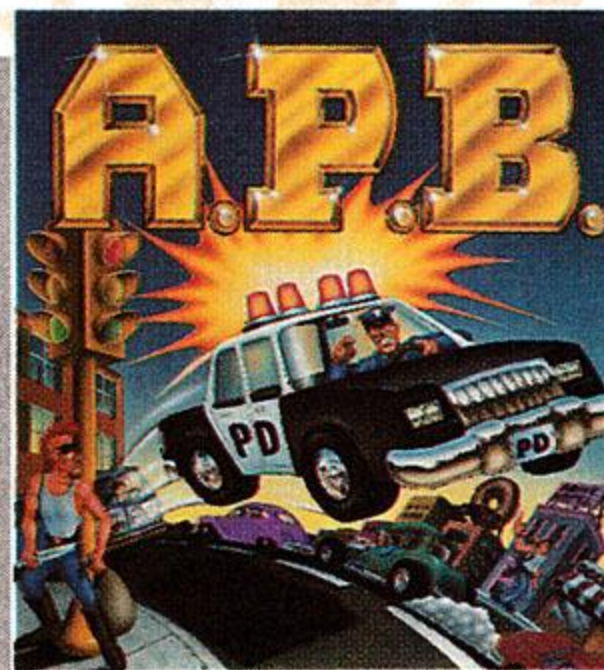

TOPI™

The easiest way to defeat the second level Boss (the Cyclops) is to stay on the step located at far left of the screen. By jumping straight up at the right time and firing as fast as you can, you will wear the creature down more quickly.

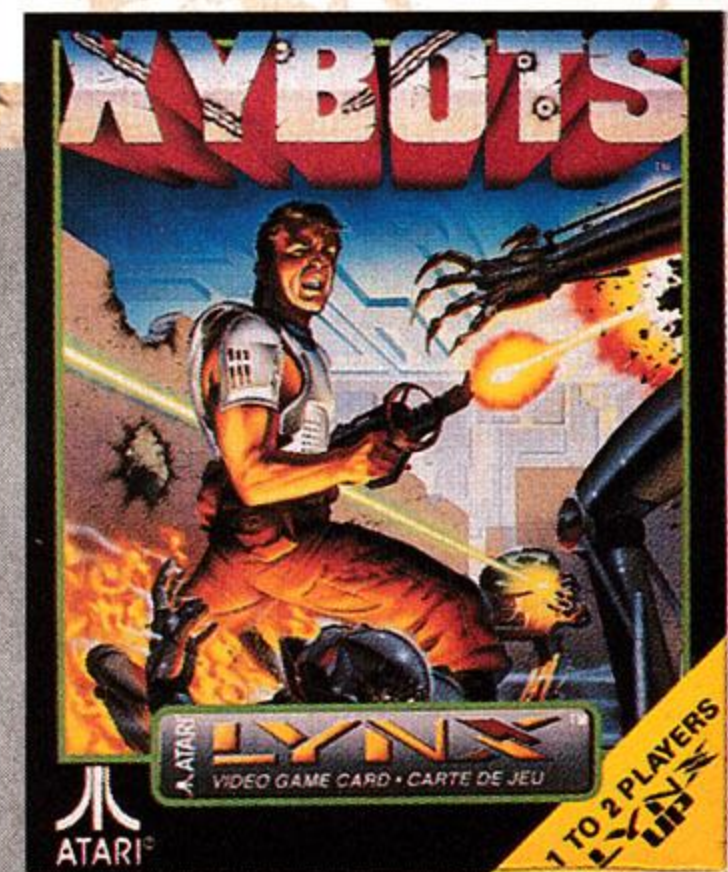

A.P.B.™

To receive a fully loaded car and start on Day 99, hold Option 1 and 2 while hitting the Sheriff's star after completing your quota.

XYBOTS™

Many different strategies can be used playing Xybots. One of the best things to remember is that you have a limited supply of money which sometimes is the difference between life and death. The best item to buy in the shop is "Slow Energy Loss." This item reduces the rate at which your energy drains. At 4X, your energy drains four times slower than normal. Keep the Slow Energy Loss at four all of the time. Buying 125% for five coins is not worth the value of buying two and a half Slow Energy Losses. If you keep your energy ticking down slowly, you do not need to carry so much energy. Buy only the things you need, not just the things which are nice to have! This will get you through the game and allow you to survive.

CRYSTAL MINES II™

If the code "ZERO" is put into the password, the player will start the game on level zero. This allows you to earn a lot of extra points before entering level 1, where the game usually starts.
